

If you would like a better idea of how 'Design Your Training' can help you and your company, take a look at our Case Studies.

HMP Wealstun

HMP Wealstun contacted the college to see if we were able to develop and deliver a bespoke training programme covering pattern cutting and CAD training. We were able to access funding from the North East Higher Skills pathfinder which allowed us to develop a bespoke programme to match their exact needs. As. Brain McGarry, Training Officer and HMP Wealstun wrote

"I have just completed a bespoke training course at CCAD. The course was tailored to meet both the prison service needs and my personal requirements. The facilities available are first class, using the best of industry equipment, and expert knowledge in the delivery of the course, this has enabled me to develop my skills and improve efficiencies in my place of work"
